

Beautiful Bones

Jack's CD *Beautiful Bones* is available for sale tonight. *Beautiful Bones*' full Hollywood style symphonic orchestra sound displays a wide spectrum of uses of the trombone and has opened to very positive reviews. Since its release it has remained on CD Baby's Top 5 list for orchestra jazz sales. It received a four star rating in a review by Jazz Scene magazine. "Our review was placed just below Tony Bennett's *Duets*", said Jack. "They gave *Duets* one-and-a-half stars. The caption at the top of the page read 'Quinby disc rates four stars, Bennett ugh!' This came as a wonderful surprise.

"Other critics agree. Indiana music professor Pete Ellefson wrote, "I am thrilled to add *Beautiful Bones* to my musical collection...it combines great playing with a trip down memory lane." KMHD's Bob Steffen says, "This is a winner".

Proceeds from today's sales will benefit both the school's Band Department and Artists for the Arts. The cost today is \$15. Mr. Quinby will be available after the concert to sign your copy. *Beautiful Bones* is also available at www.cdbaby.com (\$16.95 + shipping).
